

Setting Up Application Environment

Sendgrid Account Creation

Team ID	PNT2022TMID01744
Project Name	Nutrition Assistant Application

The screenshot shows the Twilio SendGrid dashboard for a user named JEGAN TM. On the left is a sidebar with navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area has a welcome message and a blue banner that says "Send your first emails with Twilio SendGrid". Below this is a section titled "Create a sender identity" with instructions and two buttons: "Create a Single Sender" and "Authenticate a domain instead". To the right of the text is an illustration of a person's email inbox showing a message from "Your Business". At the bottom, there is a "Send your first email" button and a note that a sender identity must be created first. A reputation bar at the bottom left shows 100%.

Welcome, JEGAN!

To get up and running quickly, please follow the steps outlined below.

Send your first emails with Twilio SendGrid

Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

[Create a Single Sender](#) [Authenticate a domain instead](#)

Your sender identity is the "front" email address your recipients will see in their inbox. [Learn more about this.](#)

Send your first email

Please create a sender identity before sending your first email.
